

Raja Muhammad Hazwan bin Raja Azman

Gombak, Kuala Lumpur | rajahazwan02@gmail.com | 011-6318 8092 | github.com/rajahazwan

Education

International Islamic University Malaysia (IIUM), Gombak, Kuala Lumpur, Oct 2025
Bachelor of Information Technology (Honours)

- Cumulative GPA: 3.63/4.0
- Dean's List: 2021/2022, 2022/2023

Sekolah Izzuddin Shah, Ipoh, Perak 2015 – 2019

- Sijil Pelajaran Malaysia (SPM): 9A

Experience

AEM Energy Solutions, Backend Developer Aug 2025 – Present

Unified HSE Suite Platform

- Building a multi-tenant HSE SaaS platform (.NET 10, EF Core, SQL Server, Azure) serving clients including PETRONAS and CPOC.
- Designed backend modules for Behaviour-Based Safety (including the BBS Dashboard module) including API design, ML implementation, schema refactoring, and EF Core migrations.
- Developing a Data Management module for multi tenant SaaS platform

MyWells (mywells.petronas.com)

- Developed and maintained a PETRONAS well operations management system (.NET, EF Core, SQL Server), develop and fix stored procedure and view logic errors affecting reports and data visibility.
- Migrated legacy database views and wrote SQL scripts for well plug-and-abandonment operations data.

AEM Energy Solutions, Back-End Developer Intern Mar 2025 – Jul 2025

- Built an asynchronous Excel uploader (Fast Excel) for the Wells Holistic Lesson Learnt project, and resolved SonarCloud vulnerability findings on the Droid ELTDS project.

Projects

AI Fiqh RAG Chatbot – Hackathon Project 2025

- Participated in the AI Fiqh hackathon, building a RAG chatbot for Islamic finance and fiqh queries using local LLM inference (Ollama) and vector search (ChromaDB) with a Streamlit interface.
- *Technologies: Python, Ollama, ChromaDB, Streamlit*

Blockchain-Based Voting Web App (Web3.0) Jan 2024

- Built a decentralized voting system with Solidity smart contracts and Web3.js for secure, tamper-proof vote recording and real-time counting.
- *Technologies: Solidity, Web3.js, Ethereum, JavaScript, HTML/CSS*

Activities & Leadership

Malaysia Autonomous Vehicle Challenge 2024 (MAVEC 24), Committee Member – Oct 2024

Helped organize an autonomous vehicle competition hosted by IIUM with 7 competing university teams, handling event design and race timekeeping.

I-HAX 2024 (Innovation Hackathon), Committee Member – 2024

Coordinated logistics and engagement for an AI-focused hackathon with 200+ participants.

Technical Skills

Programming: C#, .NET / .NET Core, PHP, JavaScript, TypeScript, Python, SQL, RAG (Retrieval-Augmented Generation), Solidity, Java, C++, HTML5, CSS3

Database: Microsoft SQL Server, Entity Framework Core, Stored Procedures, Database Views, MongoDB, MySQL, Supabase, Pinecone, Firebase

Data Analytics: Python, SQL | **Data Visualization:** PowerBI, React, Recharts

ETL / Data Migration / Integration: n8n workflow automation, SQL migration scripts, REST API integration, FastAPI

Other Technical Applications: Next.js, React, Laravel, FastAPI, .NET, Web3.js, Hardhat, Solidity, Azure DevOps, Git, Visual Studio Code, Vercel, Docker, SonarCloud, Adobe Illustrator, Adobe Photoshop, Adobe Premiere Pro, Postman

Languages Spoken: English, Malay | **Certifications:** Fundamentals of Network Communication – Coursera

Reference: Ts. Dr. Mohd. Izzuddin Bin Mohd. Tamrin, Assistant Professor, IIUM – 019-2593393
